

**POLICY NO. 30-140**

**REVISION DATE: February 1, 2010**

**SUBJECT: SCHEDULE C IRRIGATION SERVICE**

**AVAILABILITY:** Available for service to irrigation pumps, subject to the established policies of the Cooperative.

**TYPE OF SERVICE:** Single-phase or three phase, as available, at standard secondary voltages. Motors having a rated capacity in excess of 10 HP must be three-phase or be equipped with an approved phase converter.

**RATE:**

Monthly Service charge:	\$36.00 per month; Single Phase
	\$47.00 per month; Three Phase
Demand Charge:	\$2.70 per kW
Kilowatt-hour charge:	\$.036 per kWh

**MINIMUM CHARGE:** The annual minimum non-pumping charge on all irrigation services shall be five (5) months of the monthly service charge and monthly demand charge. If usage occurs outside of the normal irrigation season the customer will be billed the kWh's used plus the monthly service charge for that billing period.

**SEASON:** The minimum season is for five (5) full months between May & September.

A finance charge of 1% per month, 12% per year, will be assessed on accounts past due, with a minimum charge of \$ .50.

**Electrical and Harmonic Interference:**

The consumer agrees to maintain an average total harmonic distortion (THD) level of the load current that is consistent with the IEEE 519 (1992) standard for distribution system customers. If the Cooperative determines that the consumer load is contributing to excess THD on the distribution system, the consumer will install the necessary filtering or compensation to maintain the THD at or below the level required by the Cooperative. Failure to install the necessary preventative equipment will result in disconnection of service.

**NO ELECTRIC SERVICE WILL BE SUPPLIED POWER THAT HAS A DELINQUENT BALANCE, REGARDLESS OF OWNERSHIP OR RESPONSIBILITY.**

Rate effective 01/01/10  
Policy effective 10/01/09  
Amended 7/28/09  
Policy effective 5-27-08
